EDUCATION

Champlain College Saint-Lambert, Saint Lambert — Computer Science Program September 2022, graduation in 2025

Collège Notre-Dame-de-Lourdes, Longueuil — IB Program — DES September 2017 to June 2022

PROJECTS

External Client Project October 2024 to February 2025

- Working with a real client: Le Coin Game Over (local video game store)
- Creation of a website where the user can authenticate, reserve, purchase, pre-order video games and accessories from Le Coin Game Over.
- Coding with Java, Spring Boot, Docker Container, MongoDB, React, and following Scrum and Agile methodology.

Champlain Pet Clinic Project August to October 2024

- Worked on an imaginary pet clinic website simulating a realistic work environment.
- Worked on the implementation of the Inventory Service of the website.
- Coding with Java, Spring Boot, Docker Container, MongoDB, React, and following Scrum and Agile methodology.

Game Development Project February to May 2024

- Coded a pirate themed tower defense game with Unity in C#.
- Worked in a team of two.
- Coded the UI, behavior of enemies, and provided assets for the project (background of the scene and characters)

WORK EXPERIENCES

Sail Plein Air, Brossard — Warehouse Worker
